

1. Overall Description

MP Text Book Corporation

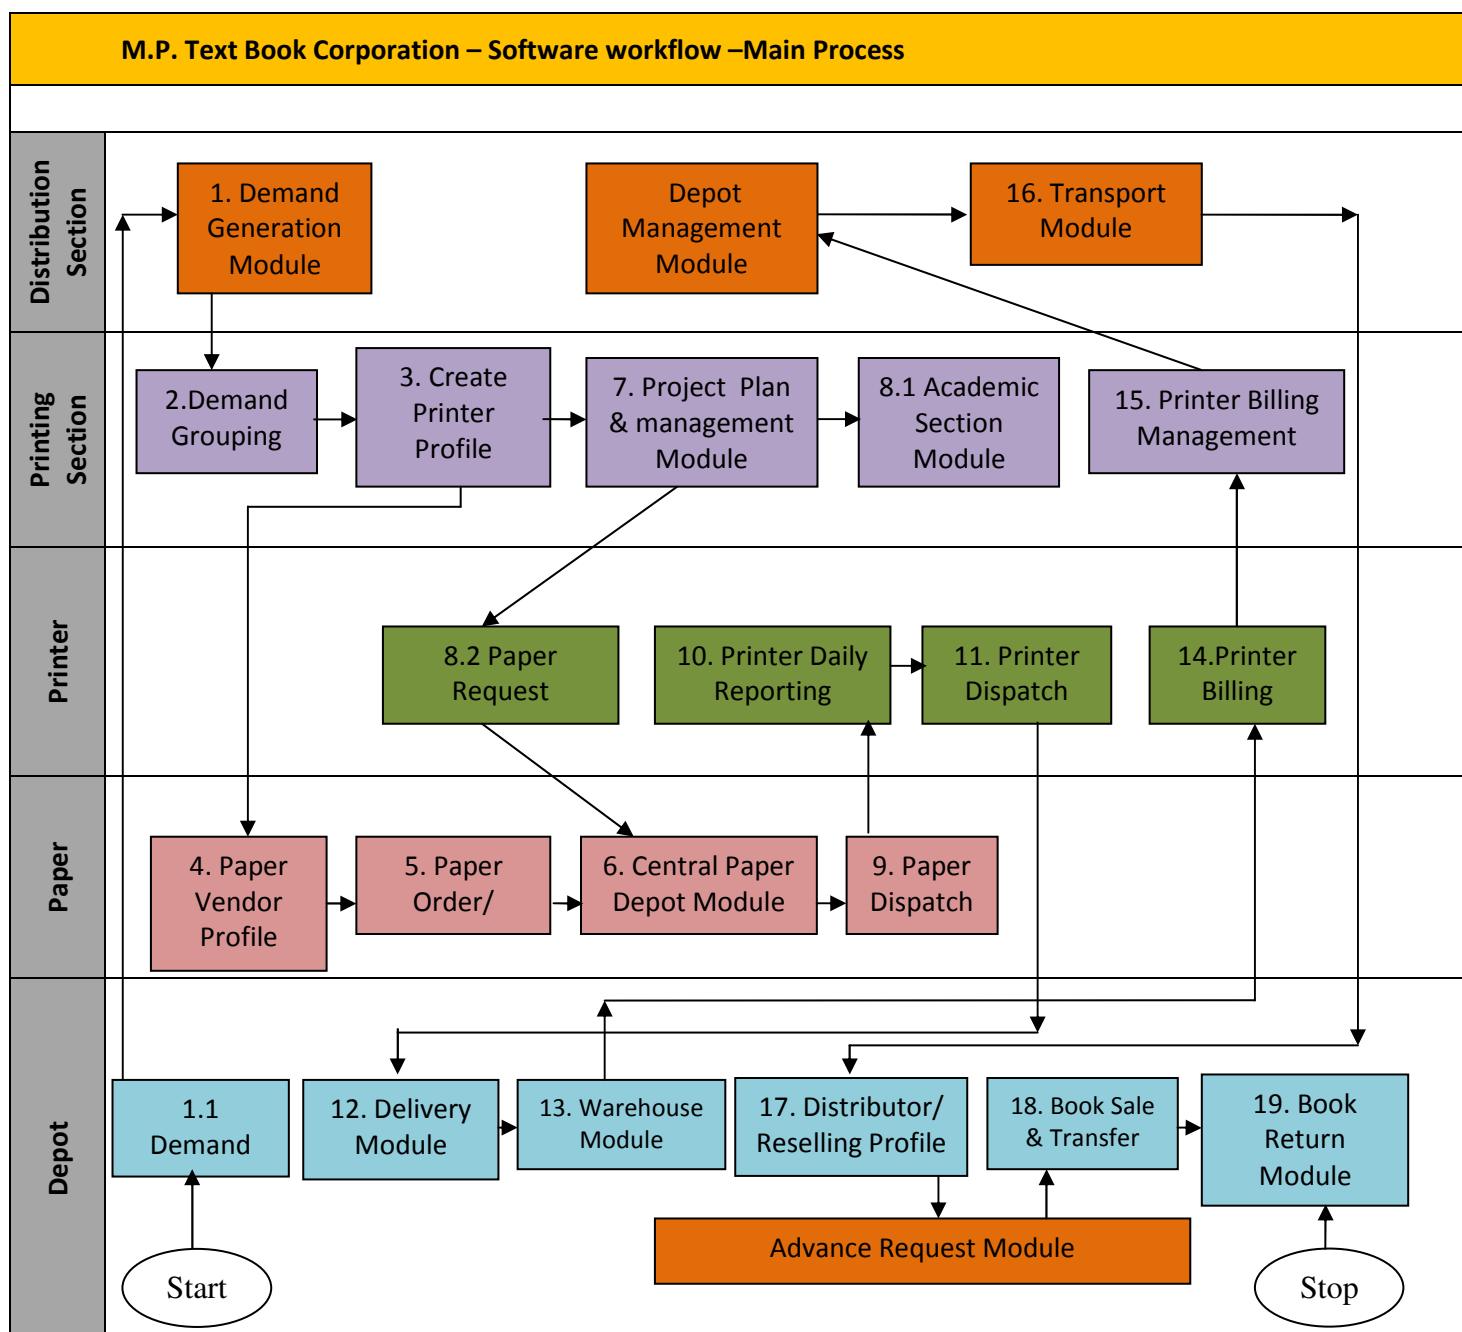

The objectives of TBC are:

- a) Provide support and assistance for up gradation of education, especially school education in the state.
- b) Ensure the printing, publishing, reposition, distribution and sales of the identified textbooks in M.P. State before the start of academic session.
- c) Facilitate printing and distribution of textbooks at reasonable prices for the school students.
- d) Facilitate research in the area of school education, especially the evaluation of textbook manufacturing.
- e) Provide grants for development of basic structures and activities of Government Schools.

TBC has following departments for performing different activities. They are:

- 1. Printing Section
- 2. Paper Section
- 3. Distribution Section (Central Paper Depot and Text Book Depot)
- 4. Academic Section
- 5. Establishment Section
- 6. Store Section
- 7. Legal Section
- 8. Accounts
- 9. Building Section
- 10. Vehicle Section

2. Overall flow of work

Other than the main modules defined above, some modules will be working horizontally to facilitate functioning across all departments. These are defined below:

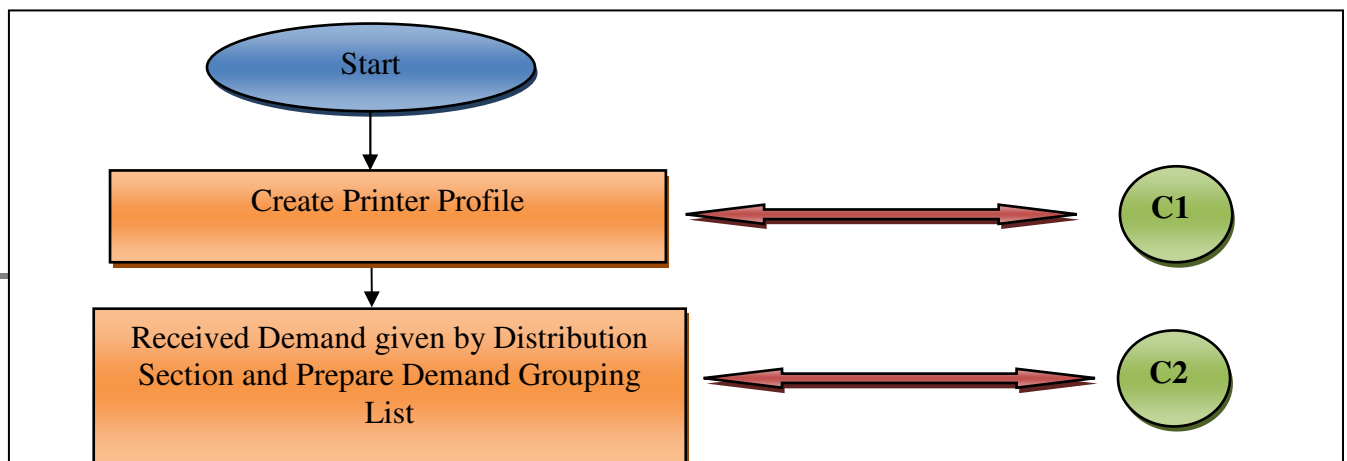

1. Tax Reports Module
2. Security deposit Module
3. Depot Store Module
4. Accounts Module
5. Comprehensive Billing Module
6. Payroll and Advances module
7. EMD/ Tender fees management
8. Cashier's Module
9. HR Module
10. Service Record Module
11. Stores Module
12. Tender Evaluation Module
13. Legal Administration Module
14. Grievance Redressal system
15. Complaint/ Query Registration

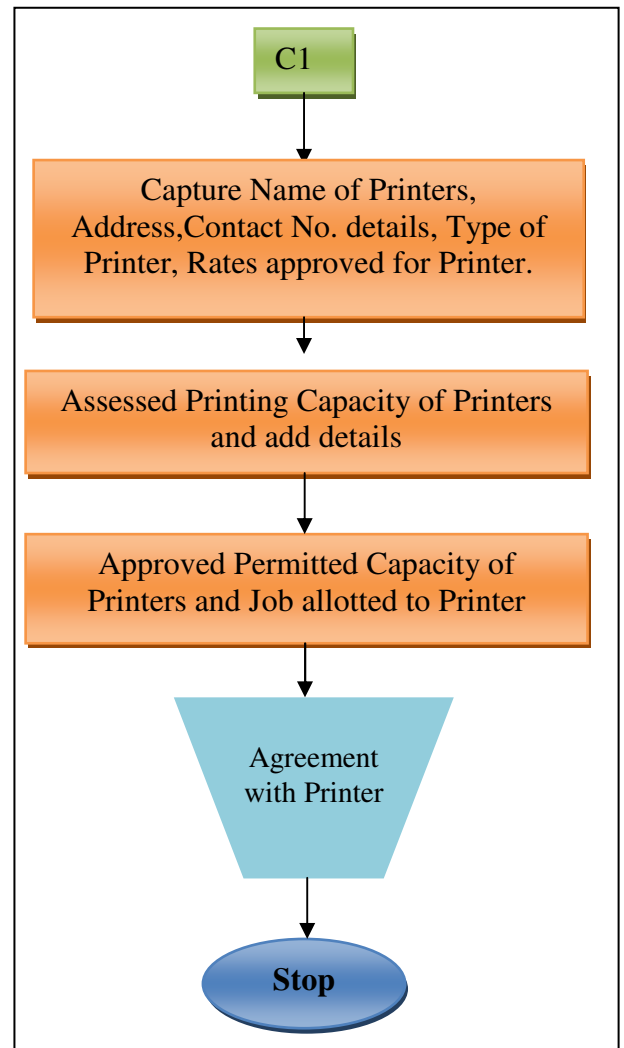

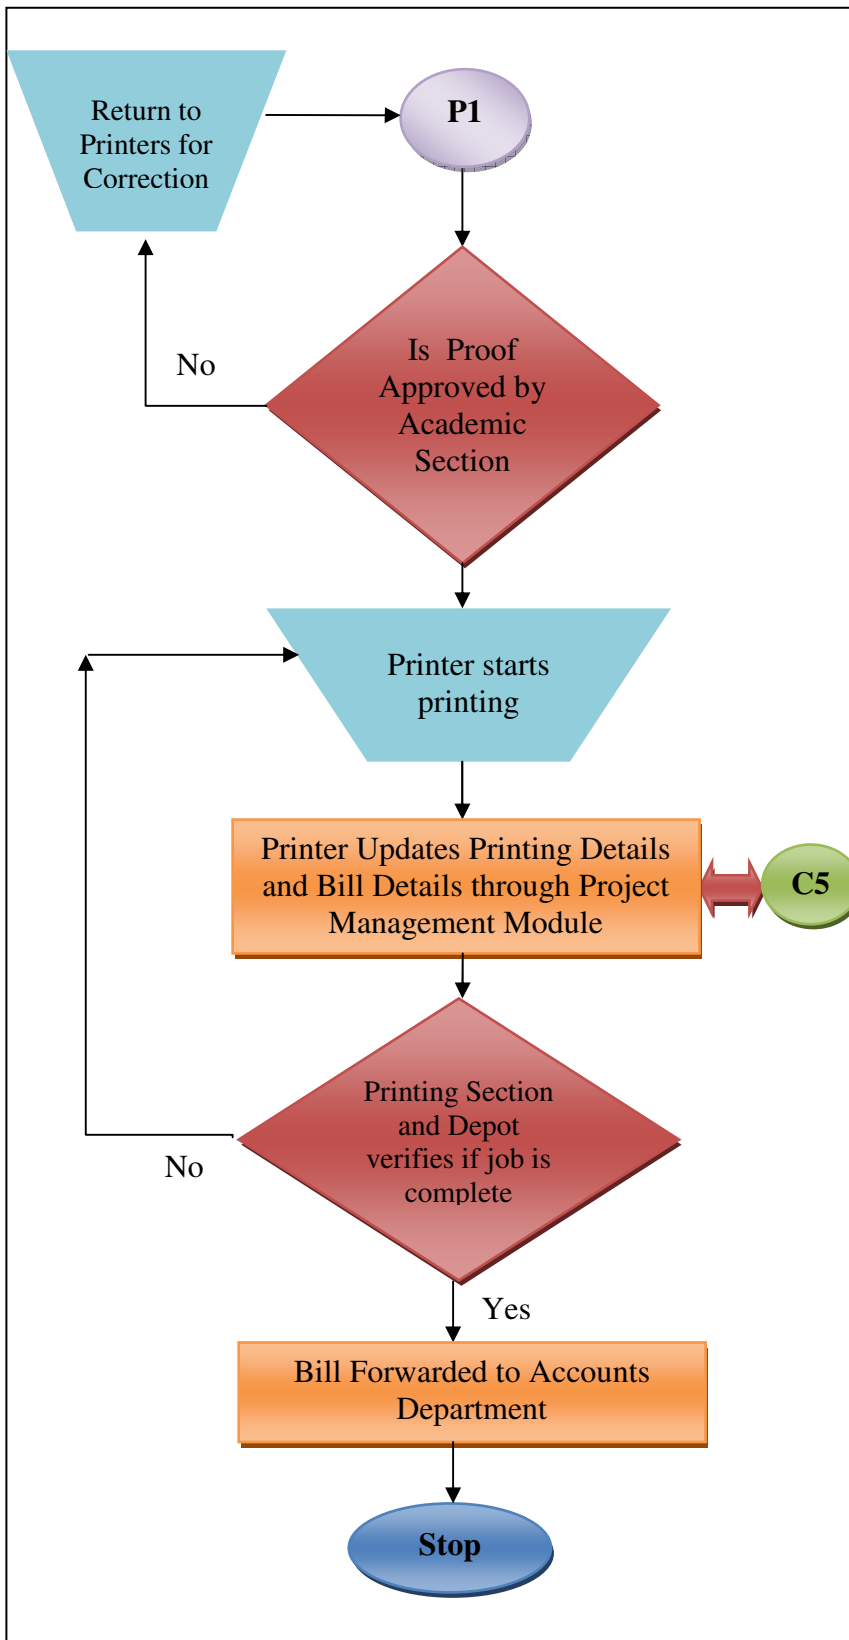

Below shown are the main process/ sub process and understanding of the workflow at MPTBC. Further in the document we have highlighted the detailed scope of work that will be covered in each of the modules and sub modules of the software.

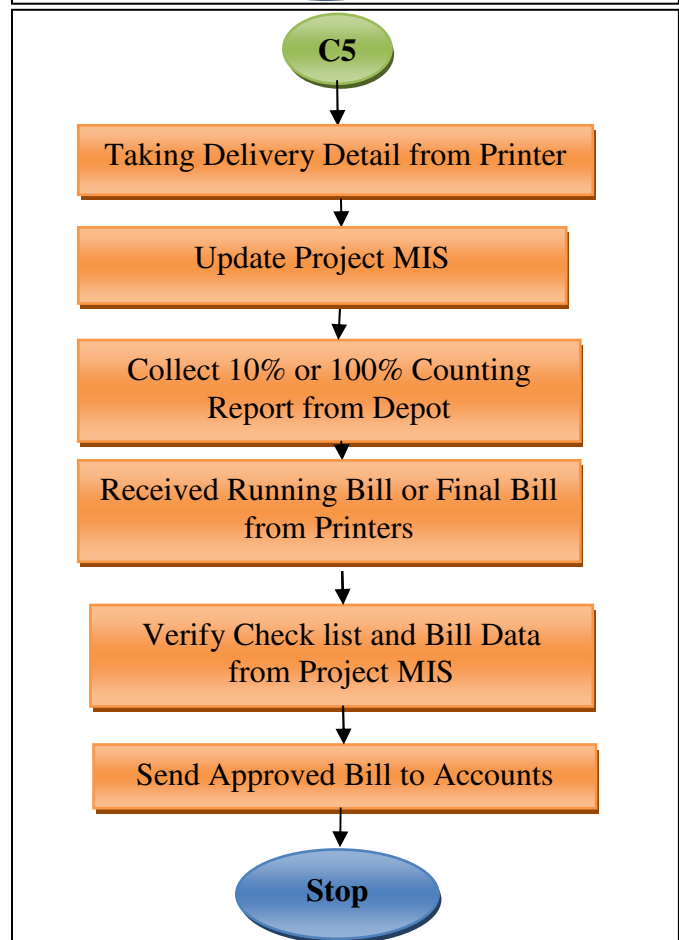

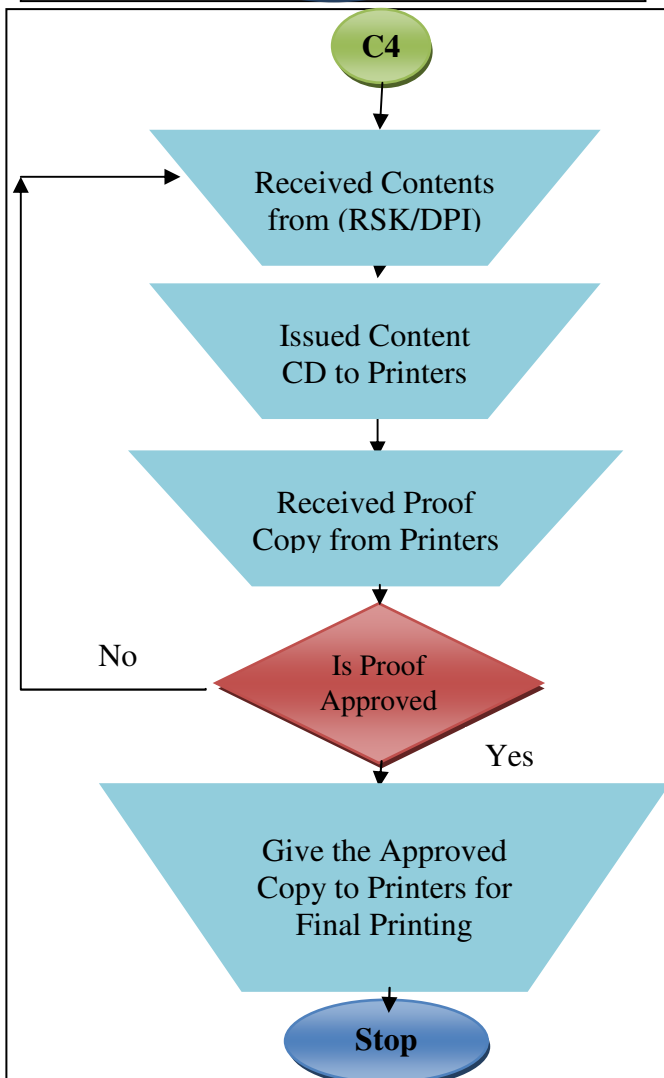

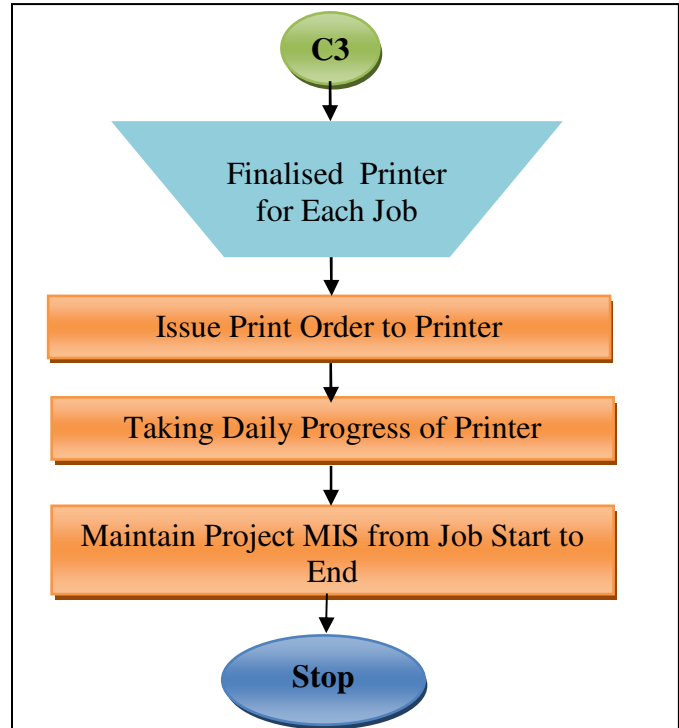

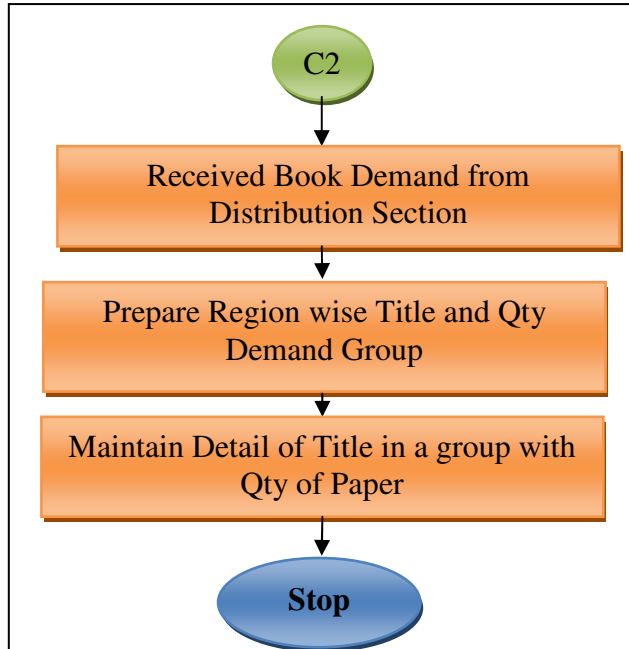

2.1 Department overview:

2.1.1 Printing Section

This section carries out all the printing related activities, including selection and management of printing vendors, ensure timely completion of printing activities, coordination between various departments and the printers. The workflow of the printing section as per our understanding is defined below:

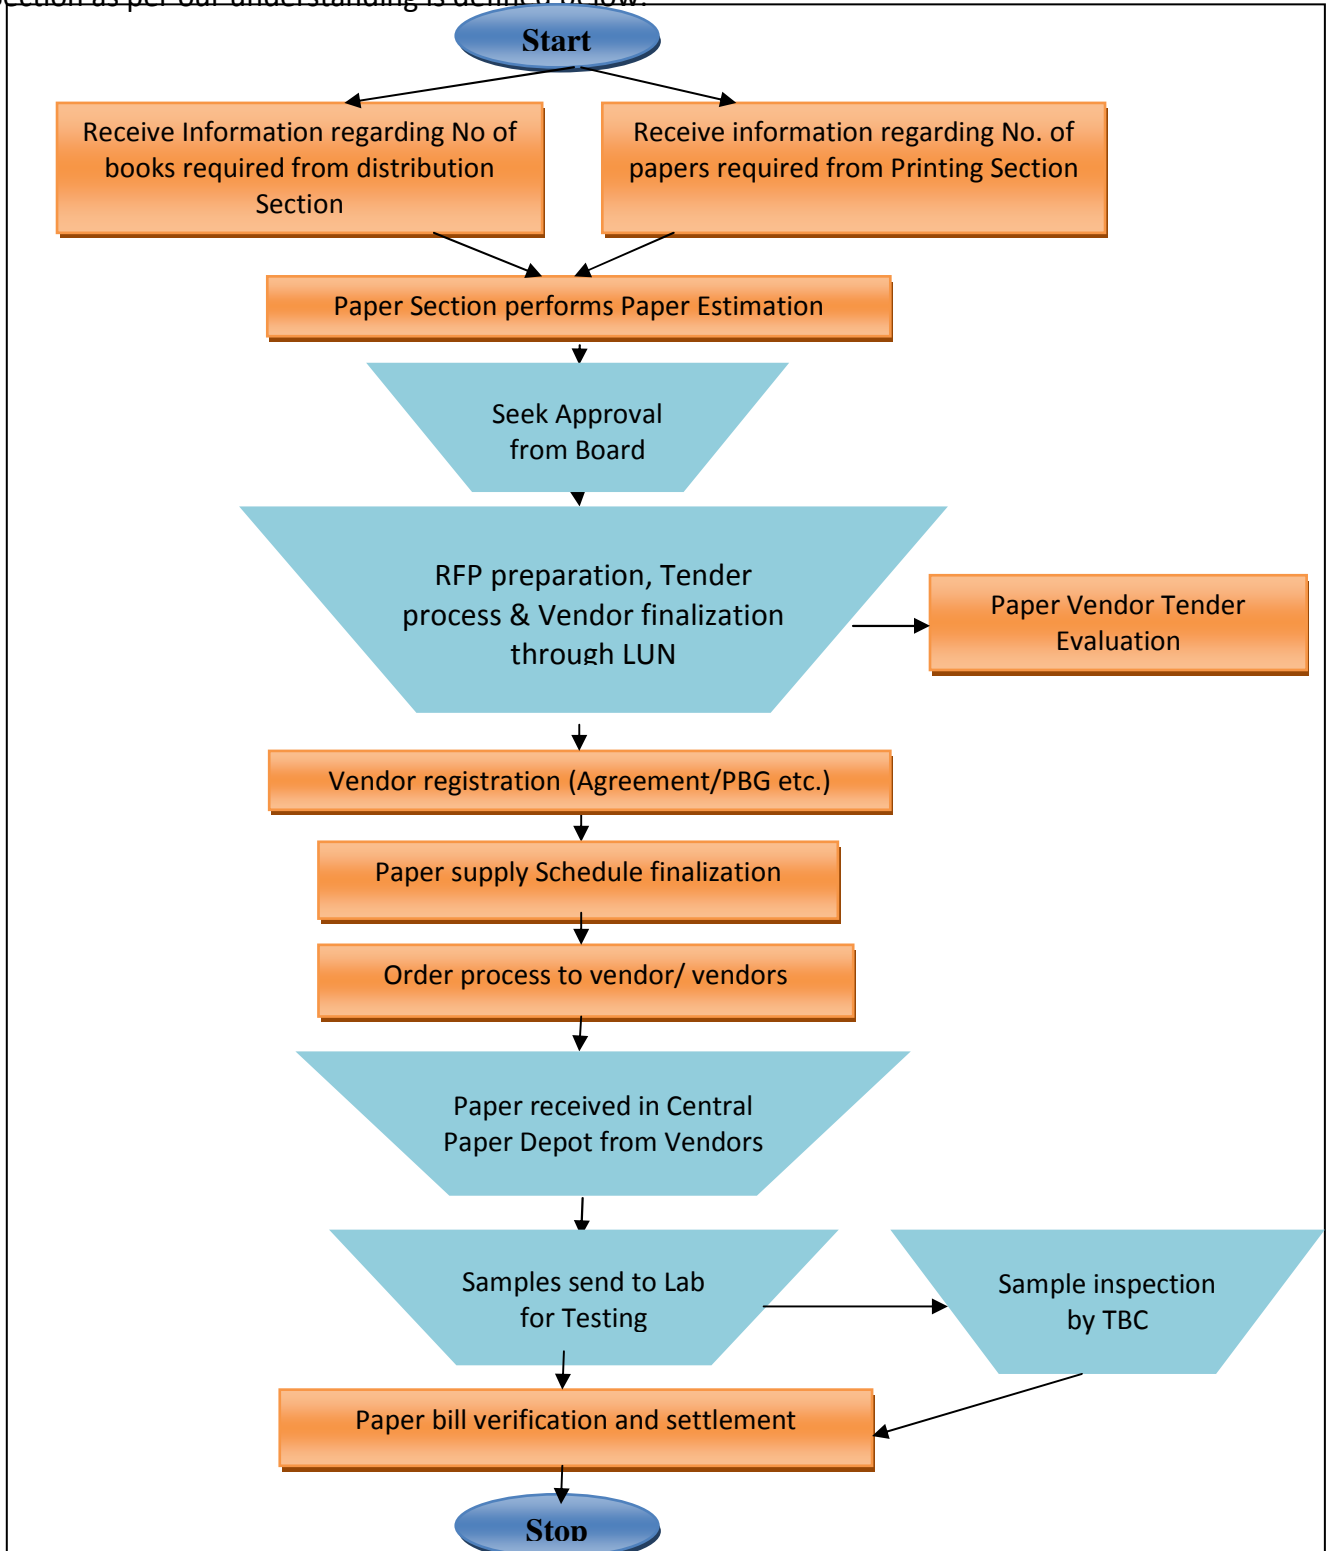

Activities performed by Printing section are as follows:

1. Carrying out printer selection process, based on the indicative demand given by distribution section.
2. Managing the profile of printers.
3. Assessment of printers' capacity, based on past record (in case printer is already associated with TBC) or based on physical assessment of the capacity(based on field visit to the printing press).
4. The printing section is also responsible for maintaining and up keeping proofs of the assessed capacity.
5. Segregation of textbooks to be printed in various groups, based on volume of books and the geographical location for delivery. Currently the various groups are:
 - Group A caters to the Depots Indore, Ujjain and Khandwa.
 - Group B caters to Bhopal and Jabalpur.
 - Group C caters to Gwalior and Sagar.
 - Group D caters to Rewa
 - Group E caters to English Medium books to be supplied at Bhopal, Indore, Gwalior or Jabalpur.
 - Group M caters to Marathi Medium books to be supplied at Jabalpur or Khandwa.
 - Group U caters to Urdu medium books to be supplied at Bhopal, Indore, Gwalior or Jabalpur.

2.1.2 Paper Section

This section carries out all the activities related to paper, including selection and management of paper vendors, coordination between the paper depot manager and various printers etc. Workflow of Paper Section as per our understanding is defined below:

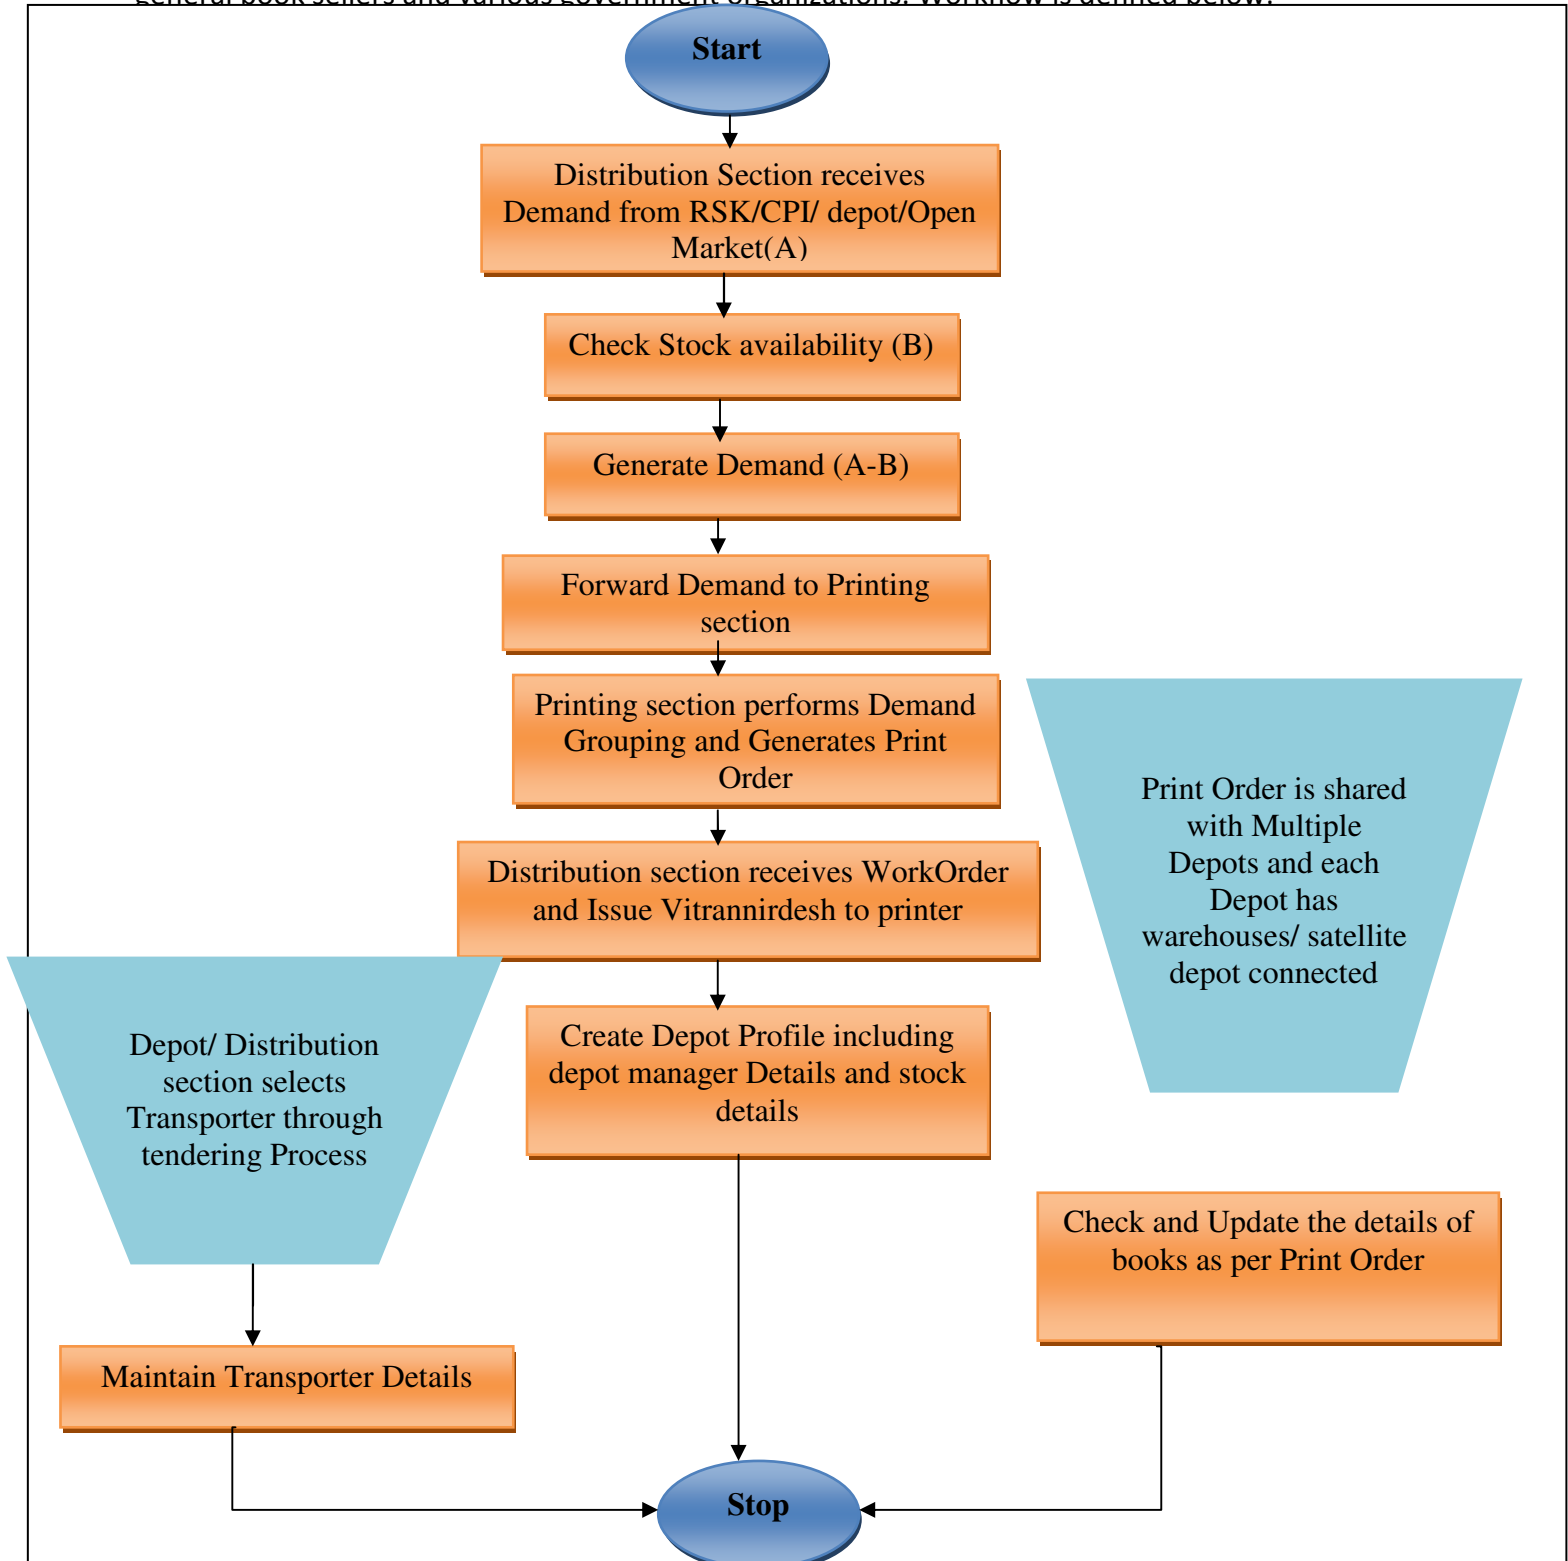

Activities performed by paper section are as follows:

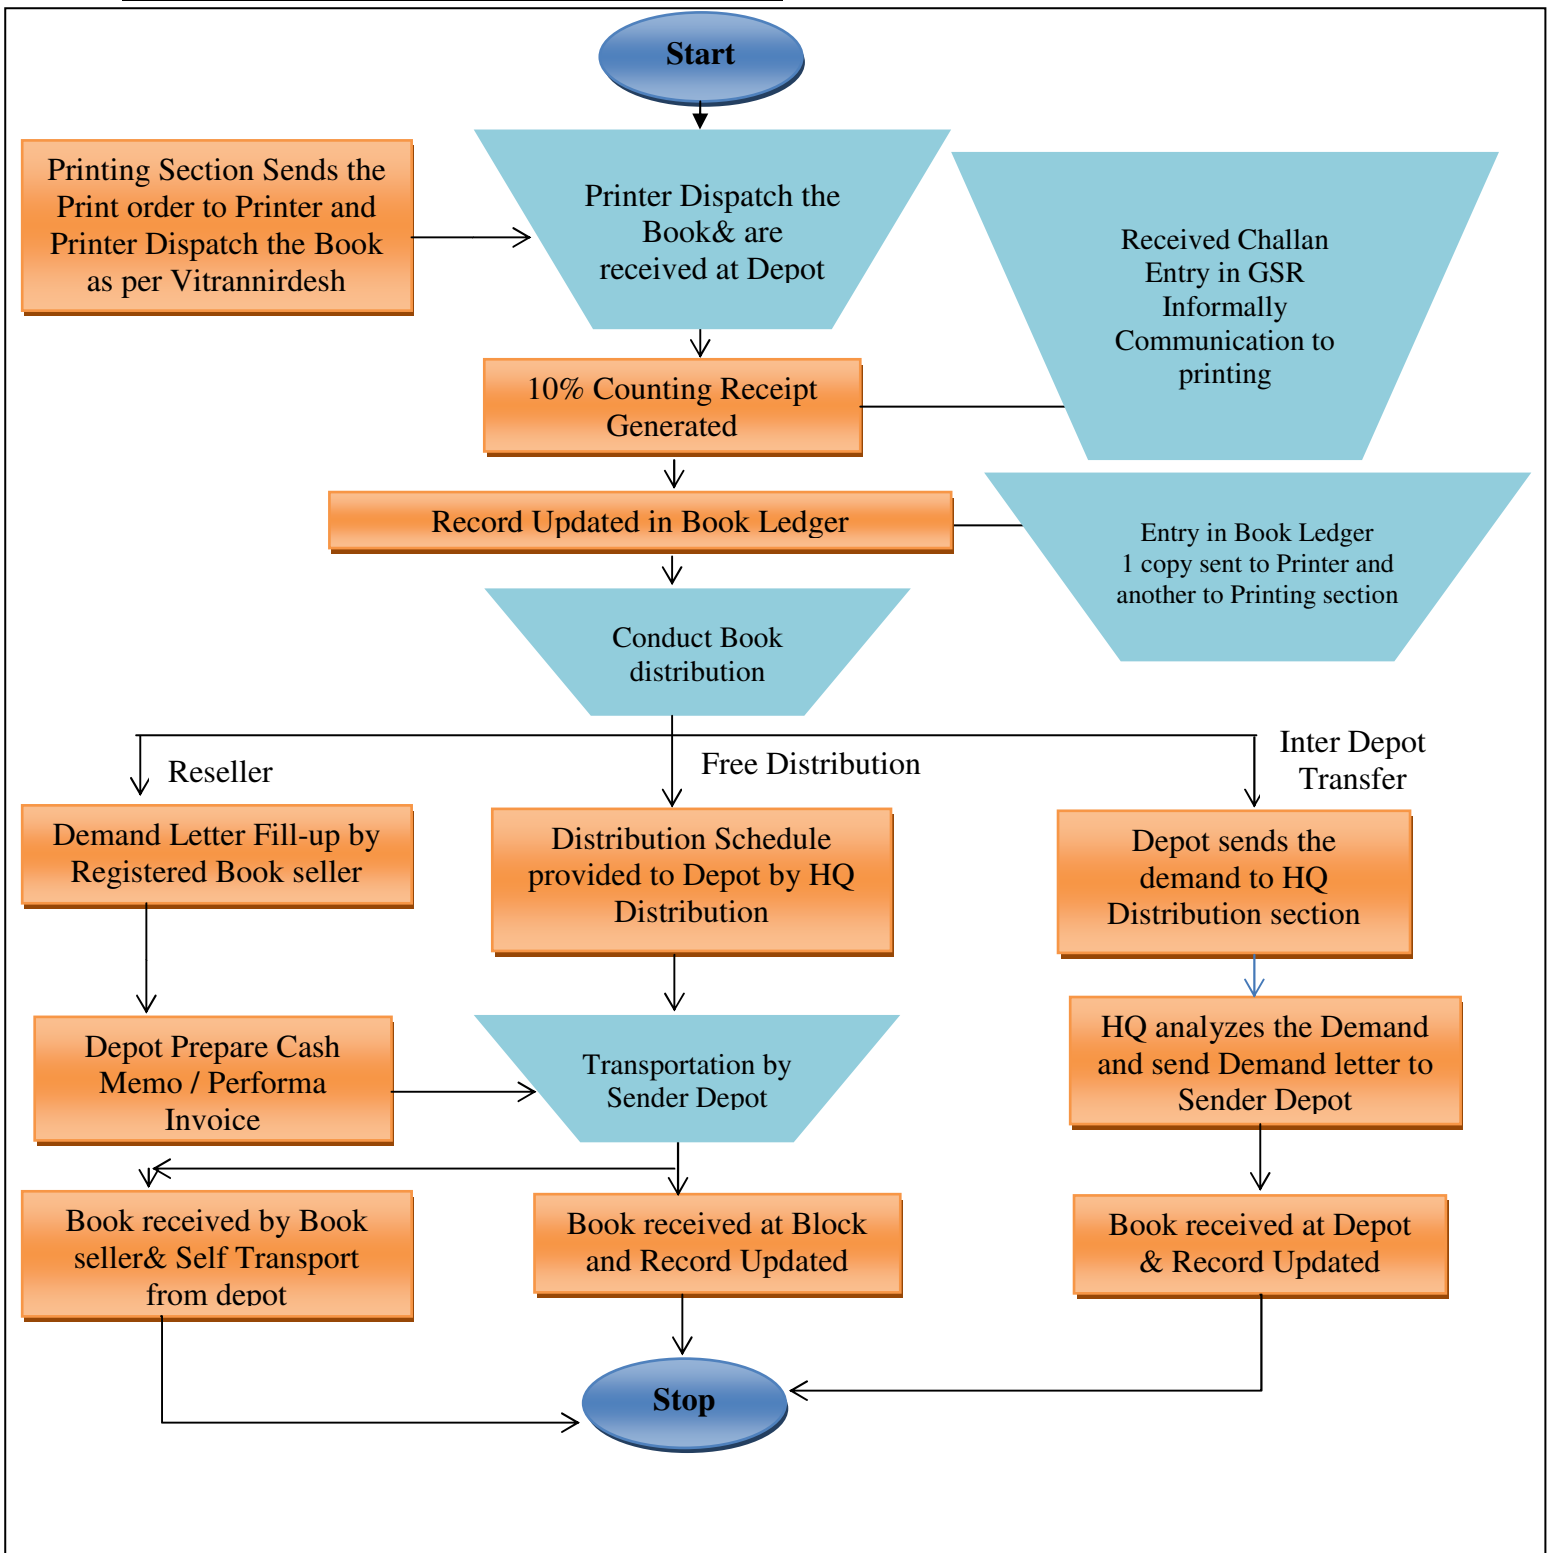

1. To assess the requirement for various types of paper based on the indicative demand given by distribution section.
2. To carry out selection of paper vendors, based on the projected requirements.
3. To manage the profiles of the paper vendor, and their capacity to deliver.
4. To carry out pre-delivery inspection for ensuring quality of paper.
5. To send randomly selected paper for laboratory tests to ensure quality of the paper.
6. To maintain the inventory of the paper in Central Depot.
7. To issue papers to various printers, subjected to submission of security deposit and fulfillment of other prerequisites.
8. To assess the usage of paper, including wastage etc. by the printers, and to levy the applicable penalty for wastage beyond specified limit, if any.
9. To formalize insurance agreement for the paper against the fire, theft, earthquake & other natural calamities, with the insurance providers.

2.1.3 Distribution Section

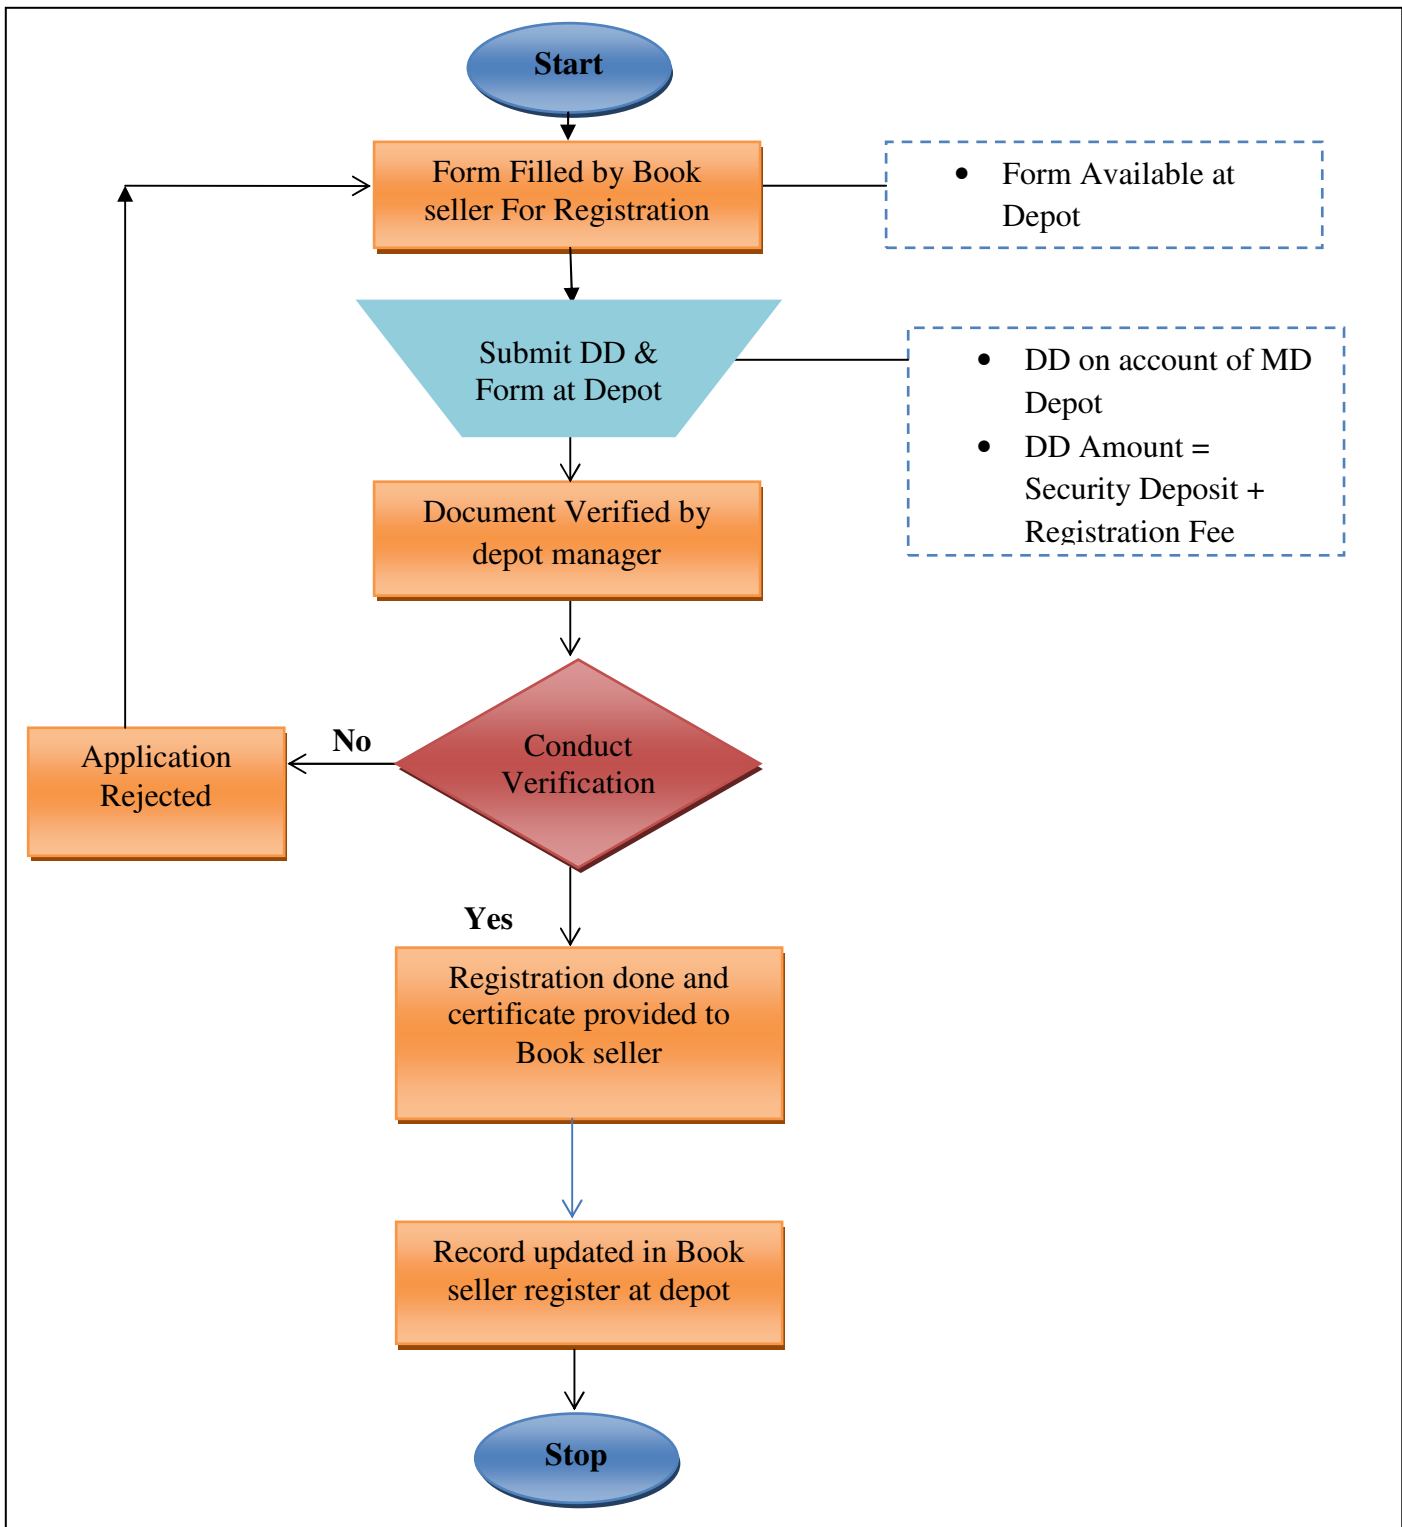

This section carries out all the activities related to distribution of books, including demand generation for Government and General sales, receiving books at various depots, and distribution of books to general book sellers and various government organizations. Workflow is defined below:

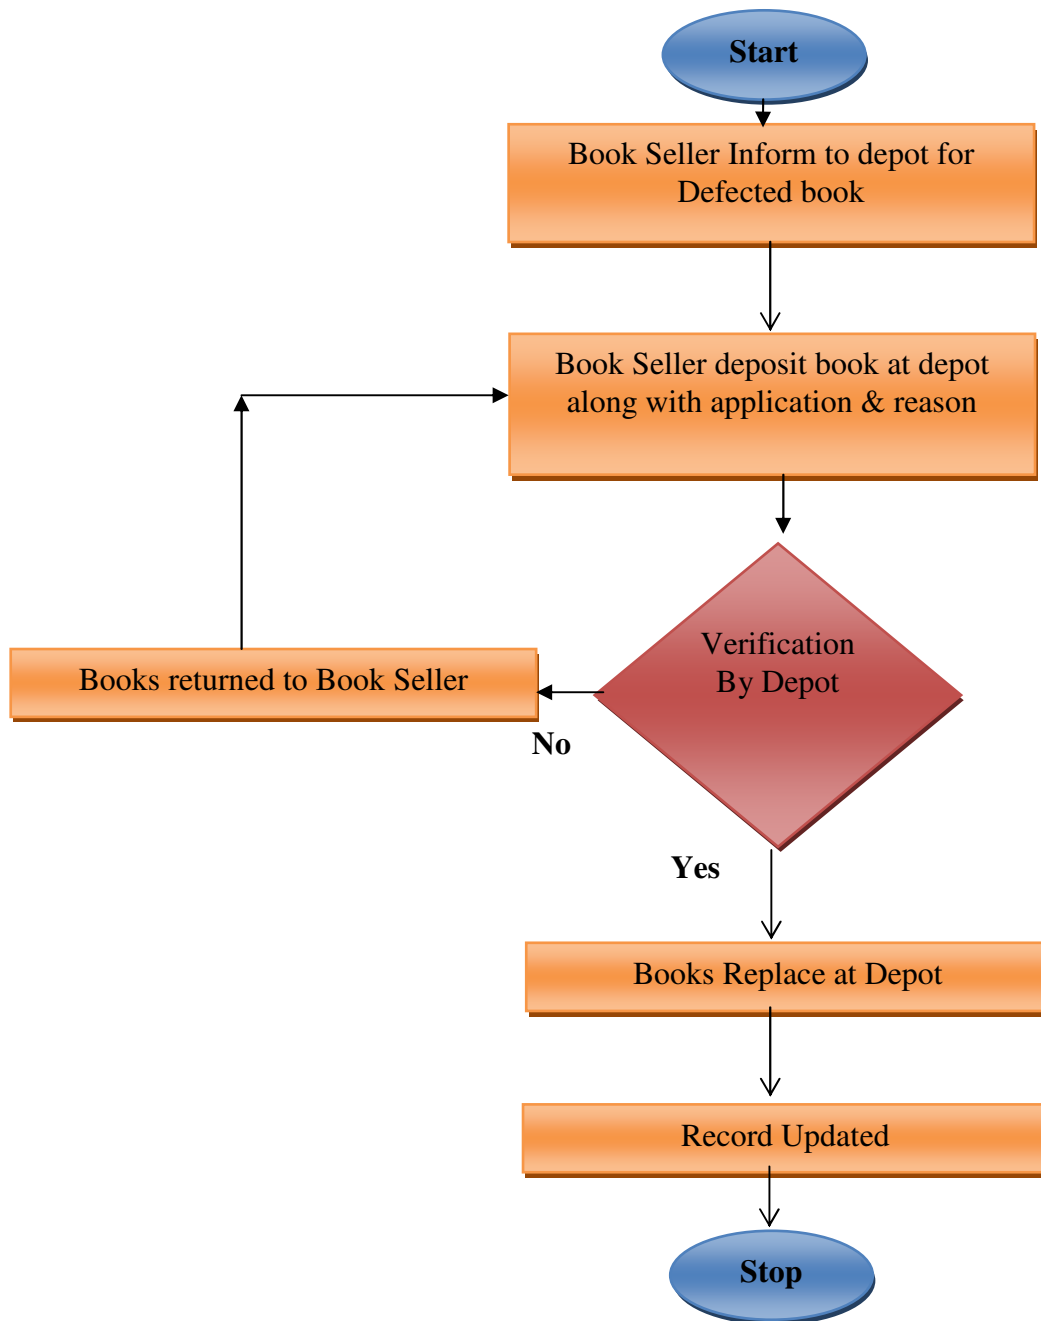

Stock Management Process flow at Depot

Process flow for Book Seller Registration at Depot

Book Return Process at Depot

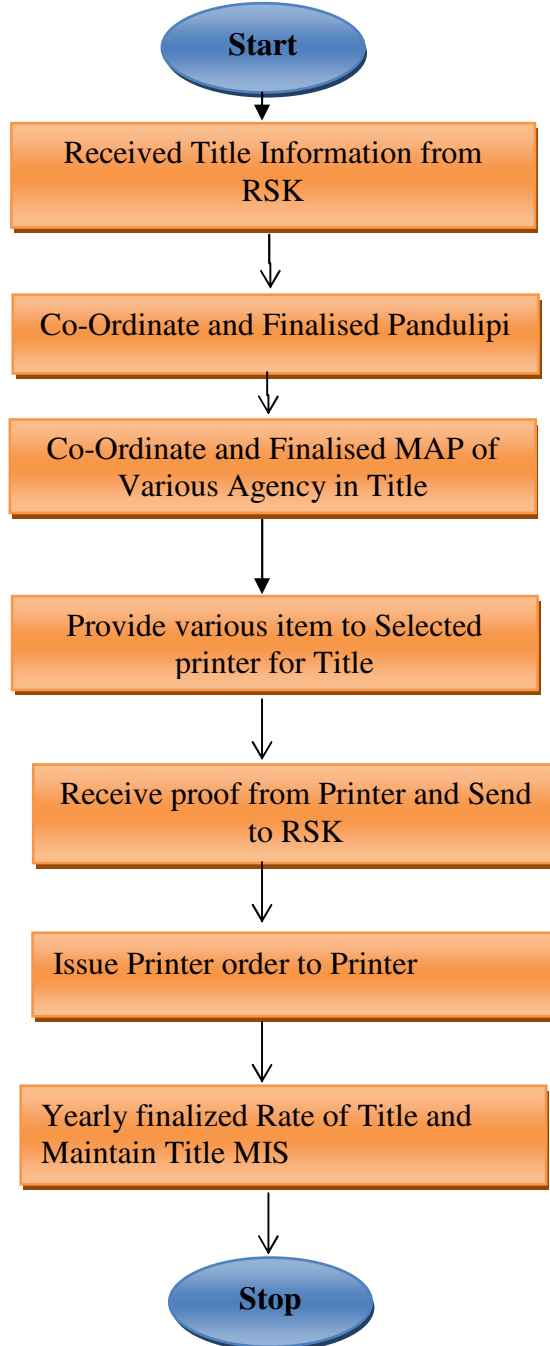

The key activities of the section are:

1. To manage and maintain the inventory in various books depots and paper depot across the state.
2. To gather the requirement of books for general sale from the depots, and finalize the indicative demand of textbooks for general sale, after due deliberation on the numbers.
3. To compile the requirement of books for Government sales, based on the previous years' sale.
4. To compile the overall demand for the textbooks to be printed in the subsequent academic year, and sharing this information with printing and paper section.
5. To coordinate with Rajya Shiksha Kendra (RSK) for the final demand of books for Std. 1 to 8, and with Commissioner of Public Instruction (CPI) for the final demand of books for Std. 9 to 12, which are to be supplied as free books under various Government Schemes.
6. To issue distribution instructions (Vitran Nirदेश) to the printers, with a copy to concerned Depot. These instructions contain the number of books for each title, the type and size of paper to be used, the numbering schema of the books, the numbering schema of the bundles, and other associated details.
7. To monitor the delivery of the printed textbooks from printers to the depots.
8. To manage and monitor any inter-depot transfer of books.
9. To approve selected vendors for providing transport facilities for delivery of books under Government Schemes from Depots to the respective Blocks, and inter-depot transport of textbooks.
10. To ensure timely delivery of the books under Government Schemes from the Depots to the concerned blocks.
11. To monitor the daily receipt and sales of the books at every Depot.
12. To monitor the stock of textbooks across the entire state.
13. To monitor the profiles of general book sellers across the state.

2.1.4 Academic Section

This section carries out all the activities related to content of the textbooks.

Academic Section Process

The key activities performed by this section are:

4. Resolution of complaints/ requests from the owners of the rented properties.

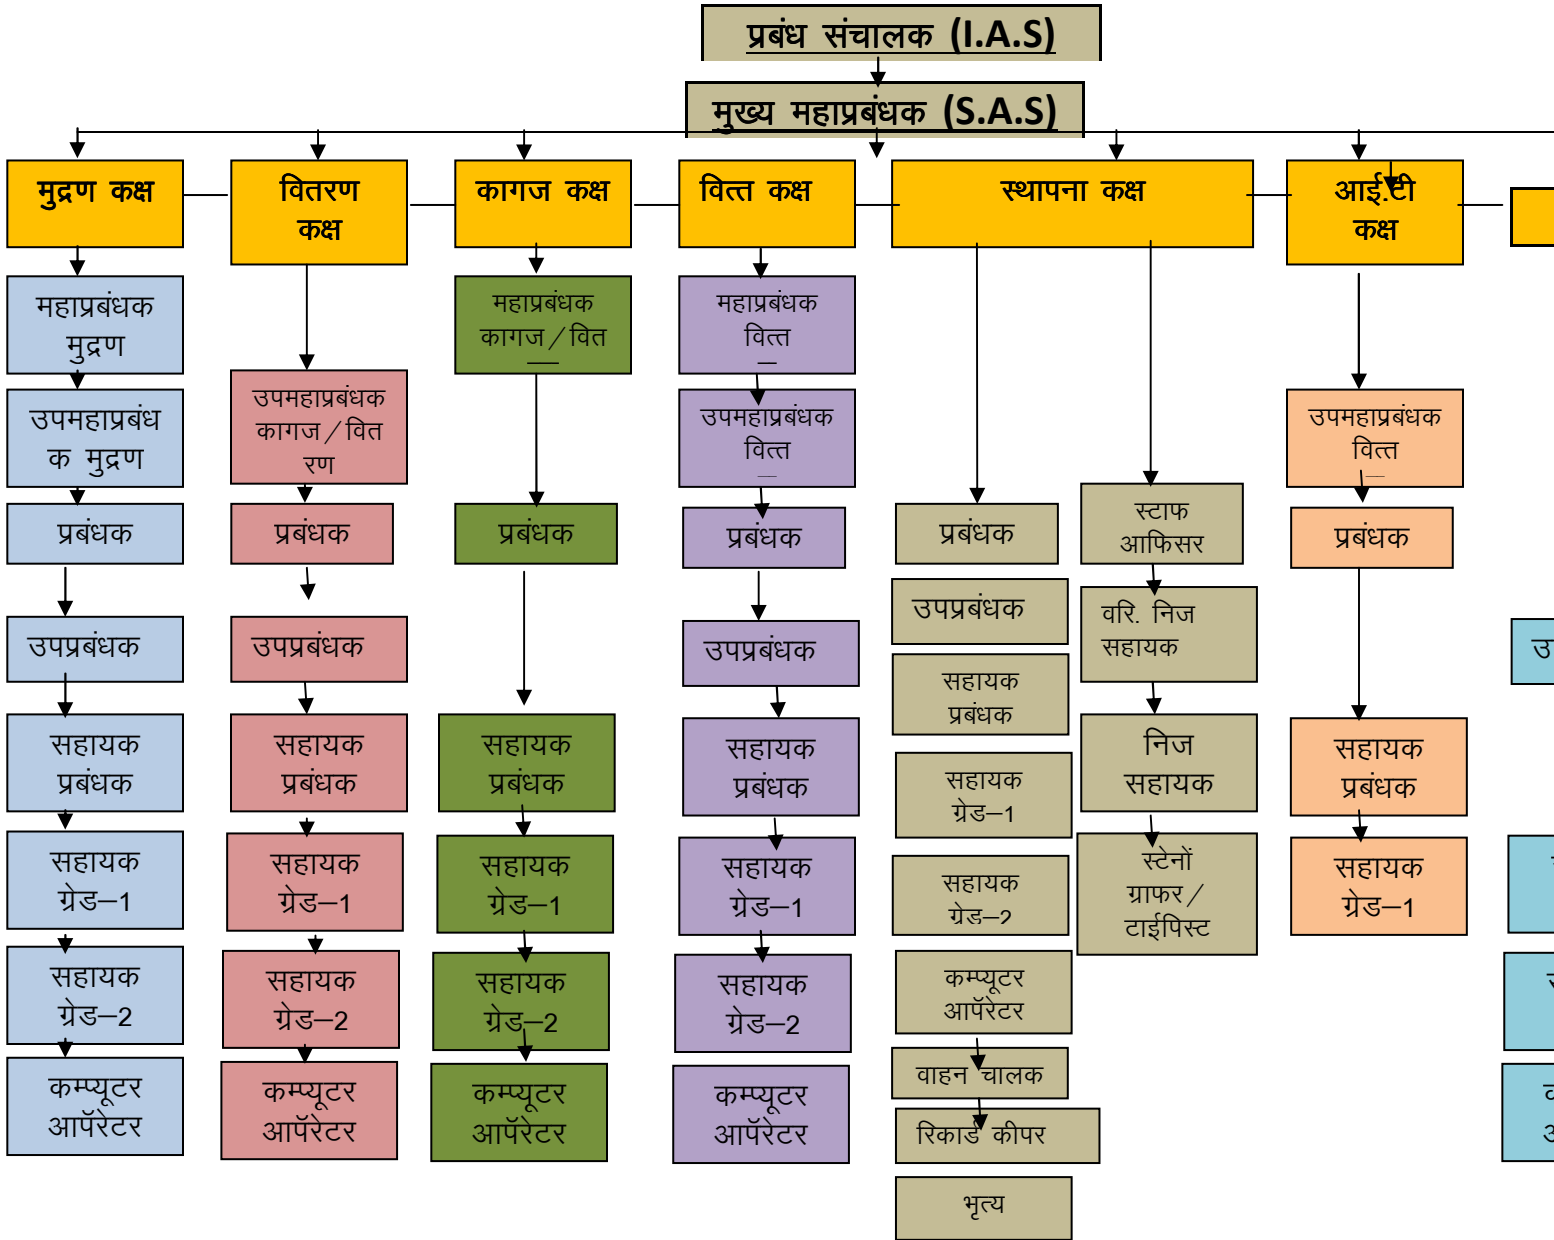

2.1.10 Vehicle Section

This section looks for the purchase, maintenance, sale, rent of the vehicle requirements of the TBC. It also grants permission for buying fuel etc. from the designated fuel pumps.

2.2 Structure of MPTBC

2.3 Product Users

Users of software Solution can be broadly categorized in two ways: Role based and Department Wise.

There are following different users (role based) who will be using this application:

- ✓ Super Administrator : One Super Admin
- ✓ Administrative Users: Three Administrative User
- ✓ Head Office (Ho) Users: Fifty HO Users
- ✓ Depot Users : Fifty Users
- ✓ External users: Two category only (Printer & Paper vendor) as decided by TBC

The features those are available are for multiple users:

- ✓ **Super Administrator:** Super Admin will assign roles and responsibilities for each user in the system and grant privileges to the registered users.
- ✓ **Administrative Users:** Administrative Users can track status reports to monitor the progress of various activities.
- ✓ **HO Users:** HO Users can use input forms as per accessibility, view daily and monthly progress reports to monitor the ongoing status of the assigned task. **HO Users** can also freeze the Physical and Financial targets of the assigned projects.
- ✓ **Depot Users:** **Depot Users** will enter daily depot routine activities and financial expenses detail.
- ✓ **External users:** Printer vendors can view his printing schedule & update printing status online. Paper vendors also can view his schedule & update status online.

Classification of Users (Section/ department wise)

** Note: above users are indicative as per discussed with TBC, finally we can add more at the time of prototype finalization.
